Oral / Poster Competition

Each year at the annual meetings, the Society sponsors a Student Oral and Poster Competition. All active student members are eligible. Membership applications maybe found under the FORMS section of this web page. There are at least three cash prizes for each of these two contests of $300, $200 and $100, respectively. In cases of ties, more than one student may be awarded these prizes at the three levels.

Presentations should report direct student involvement with reclamation activities. There are no restrictions regarding appropriate topics. For oral presentations the student should submit a written manuscript for review. For posters, as a minimum, an abstract is required, but extended is encouraged. These papers and abstracts will be included with the others presented at the annual meetings. See the forms used to evaluate oral and poster presentations the past few years as a separate document under Student Activities.

One or more judges will evaluate the oral and poster presentations. For posters, the student must be present at the assigned time listed in the Meetings Program to answer questions of the attendees and the anonymous judges.

The form on the last page should be submitted at the date in which the final manuscripts are due so that the organizing committee can attempt to arrange all student oral presentations so than no two are given at the same time. This allows judge or judges to listen to all the students entered in the contest. At that time annual dues should be paid. Awards will be made at the Awards Banquet.
Hereby, I indicate my intention to participate in the

(Mark one) ______ oral or ______ poster category of the Student Presentation Competition of ASMR at its next annual meetings. I understand this constitutes a firm commitment to participate on my part.
