Proceedings

18th Annual National Meeting of the American Society for Surface Mining and Reclamation

Land Reclamation – A Different Approach

Proceedings of a conference held June 3-7, 2001 in Albuquerque, New Mexico

Co-editors
Ecology – Richard Vincent
Forestry – James A. Burger
Geotechnical – Gennaro G. Marino
Hydrology – Greg A. Olyphant
Land Use – Susan C. Wessman
Soils and Overburden – Robert G. Darmody
Tailings – Timothy C. Richmond and Stuart A. Bengson
Wetlands – Jack R. Nawrot

Coordinators
Richard I. Barnhisel, Bruce A. Buchanan, Debi Peterson and John J. Pfeil

Published by
The American Society for Surface Mining and Reclamation
2001: 18th National ASSMR Meeting

Meeting Chairman
Bruce A. Buchanan
Buchanan Consultants, Ltd.
P.O. Box 2549
Farmington, NM 87401

Planning and Program Committee
Wayne Robbie
U.S. Forest Service
4805 Choctaw Trail NW
Albuquerque, NM 87120

Tim Ramsey
BHP World Minerals
P.O. Box 210
Waterflow, NM 87418

Ann Wagner
MolyCorp Inc.
P.O. Box 469
Questa, NM 87556-0469

John J. Pfeil
NM Mining and Minerals Division
1220 S. St. Francis Dr.
Santa Fe, NM 87505

Brent D. Musslewhite
Buchanan Consultants, Ltd.
Box 2549
Farmington, NM 874999

ASSMR Executive Secretary
Richard I. Barnhisel
3134 Montavesta Rd.
Lexington KY 40502-3548
phone 877 701-2086
fax 877 701-2086
E-mail: rbarnhis@ca.uky.edu

Mark D. Hiles
Lee Ranch Coal Company
P.O. Box 757
Grants, NM 87020

James O’Hara
NM Mining and Minerals Division
1220 S. St. Francis Dr.
Santa Fe, NM 87505

John T. Harrington
New Mexico State University
P.O. Box 359
Mora, NM 87732

Teri W. Conrad
220 West Main
Farmington, NM 87401

Virginia T. McLemore
NM Bureau of Mines and Mineral Resources
NM Institute of Mining and Technology
Socorro, NM 87801

Mike Bowen
Executive Director
New Mexico Mining Association
Santa Fe, NM 87505
## Contents

### Biodiversity Special Session

Testing Native Grasses for Survival and Growth in Low pH Mine Overburden .......................... 2

*Dreesen, Harrington, Wagner, Murray and Sun*

Creating Diverse Wildlife Habitat at La Plata Mine, Northwestern New Mexico, A Case Study:

Part 2. Soils and Vegetation .................................. 18

*Musslewhite, Buchanan, Ramsey, Hamilton and Luther*

Creating Diverse Wildlife Habitat at La Plata Mine, Northwestern New Mexico, A Case Study:

Part 1. Landscape Design .................................. 26

*Ramsey, Hamilton, Musslewhite, Buchanan, and Abiad*

Influence of Provenance on *Ribes cereum* and *Symphoricarpos oreophilus* Seed Germination in

New Mexico Seed Sources .................................. 31

*Rosner, Harrington, Dreesen and Murray*

Establishing Wyoming Big Sagebrush on Mined Lands in Wyoming .................................. 39

*Schuman, Vicklund and Belden*

### Ecology Technical Session

Palmer Drought Indices as Indicators of Long Term Stability and Permanence of

Surface Coal Mine Reclamation .................................. 49

*Bickel*

Post-mining Land-use Planning and Design: a Multiplicity of Choices and Options ................. 60

*Burley*

Stabilization of the Mean as a Demonstration of Sample Adequacy .................................. 65

*Clark*

Ecological Assessment of Surface Reclamation of a Hardrock Mine in Wisconsin when

Compared to Other Standards of Success .................................. 70

*Hunt, Broughton and Joseph*

The Installation, Establishment, and Maintenance of the Rountree Prairie

The University of Wisconsin-Platteville .................................. 77

*Hunt and Ratigan*

Coal Basin Mine Reclamation Case Study .................................. 85

*Renner*

### Forestry and Wildlife Technical Session

Saline Pre-Treatment of Jack Pine Seedlings for Planting on Reclamation Sites

Impacted by Saline Tailings .................................. 97

*Franklin and Zwiazek*

Forest Productivity and Minesoil Development Under a White Pine Plantation Versus

Natural Vegetation After 30 Years .................................. 103

*Gorman, Skousen, Sencindiver and Ziemkiewicz*

Results of Species Trials on Low pH Overburden Materials for Mine Land Reclamation ............ 112

*Harrington, Dreesen, Wagner, Murray and Sun*

Forest and Site Productivity on Pre-SMCRA Mined Land .................................. 121

*Rodrique and Burger*

### Geotechnical Technical Session

Siting of a Federal Prison Facility on a Reclaimed Strip Mine in Eastern Kentucky – a Case Study .................................. 134

*Hintz, Pinnix and Ragozzino*

Extreme Impact of Underground Mining on Linear Transportation Structures .......................... 142

*Klosek*

Mine Subsidence Investigations in Hillslope/Landfill Areas .................................. 151

*Makar and Berner*

Long-Term Floor Stability of an Indiana Coal Mine .................................. 159

*Marino*
### Hydrology Technical Session

- Water Quality Improvements Over Time and Longevity of Acid Mine Discharges from Underground Mines in Northern West Virginia
  - Demchak, Skousen and McDonald
- Scatterscore Method to Evaluate Changes in Water Quality
  - Kim and Cardone
- Infiltration Test Plot Study for Mine Rock Piles at Questa Mine, New Mexico
  - Wels, O'Kane, Fortin and Christensen
- Overview of Coal-Bed Methane Development and a Discussion of Montana Impacts
  - Wheaton and Olson

### Land Use Technical Session

- Visualizing the Future: Surface Mining
  - Ellsworth
- SMCRA Bond Release – The Initial Steps at San Juan Mine
  - Estrada and Clark
- Reclamation Revisited: Minas Gerais, Brazil
  - Toy and Griffith

### Poster Presentations

- Evaluating Techniques for Establishing a Vegetative Cover on an Acidic Reject Coal Basin
  - Barton, Adriano and Seay
- Evaluating Mine Water Treatment Choices (EMWATCH)
  - Brown, Barley, Wood and Parker
- Soil Ordination: Implications for Post-Mining Disturbance Land-Uses
  - Burley and Gray
- Base Metal and Trace Element Concentrations in Stream Sediments Along the Pecos River, From the Southern Pecos Wilderness to Brantley Dam, North of Carlsbad, Eastern New Mexico
  - Carey, Brandvold and Mclemore
- Influence of Pisolithus Tinctarius Inoculation on Greenhouse Growth and First-Year Transplant Survival of Conifer Seedlings
  - Harrington, Wagner and Dreesen
- The Influence of Seed Source and Stock Size on First-Year Performance of Direct Transplanted Conifer Seedlings
  - Harrington, Dreesen, Wagner, Murray and Sun
- Conceptual Regrading Using Three-Dimensional GIS to Evaluate Mine Reclamation
  - Jordan
- Characterization and Resource Recovery Potential of Precipitates Associated with Abandoned Coal Mine Drainage
  - Kairies, Watzlaf, Hedin and Capo
- Reclamation of the Retsof Mine and Affected Areas
  - Klugh
- The Assessment of a Phosphogypsum Stack in Texas
  - McGuire, duPont and Rubsam
- Weathering Characteristics of Spoil Materials at La Plata Mine, Northwestern New Mexico: An Eight Year Study
  - Musselwhite, Brown, Buchanan and Ramsey
- Restoring Wetland Form and Function to Everglades Borrow Pits
  - Norland
- Bioremediation of Alkaline Mine Effluent Using Treatment Wetlands
  - O'Sullivan, Murray and Otte
- Characterization of Petroleum Contaminated Soils in Wyoming
  - Peel, Reddy, Stahl and Rodgers
- Modified NP Testing for Lignite Overburden Samples in Texas
  - Porter and Hosner
- Potential for Phytoremediation of Iron Cyanides Using Willow
  - Reeves, Weinstein, Laurence and King

</table>
Tailings Technical Session

Reclaiming Coarse Taconite Tailings—Are Organic Amendments the Answer? .................................................. 458
Eger, Johnson and Melchert

Reclamation of U.S. Uranium Mills—Extraordinary Requirements, Extreme Costs .......................... 472
Kuhn

Tailing Reclamation = Oasis = Closure ........................................................................................................ 479
Shetron and Goodman

Reclamation of Copper Mine Tailings Using Biosolids and Green Waste. ........................................... 492
Thompson, Wald-Hopkins and White

Assessment of Water Storage Cover for Questa Tailings Facility, New Mexico ............................... 500
Wels, O’Kane and Fortin

Aquatic Plant Establishment on Water-Covered Nickel Tailings ............................................................... 514
Wilkinson, Beckett and St-Germain

Wetlands Technical Session ...................................................................................................................... 523

Biotic and Abiotic Iron Oxidation Kinetics in Net Alkaline Mine Drainage ........................................ 524
Athay, Nairn and Strevette

An Evaluation of Biotic Integrity Associated with Coal Mine Reclamation in the Dry Creek Drainage Basin, Tennessee ................................................................. 529
Brookens, DeAngelo and Stearns

Sulfate Reduction—Decreases in Substrate Reactivity and the Implication for Long-Term Treatment .......................... 542
Eger and Wagner

Constructed Wetland Research for the Treatment of the Plant Gorgas Coal Pile Runoff ................ 558
Garrett, Jr., Bartolucci and Vernace

Influence of Ammoniacal-N on Wetland Plant Species ........................................................................ 569
Meikle and Waugh

Remediation Challenges and Opportunities at the Tar Creek Superfund Site, Oklahoma ................ 579
Nairn, Griffin, Strong and Hatley

Remediation Properties of Materials to Treat Acid Mine Drainage Water at a Gold Mine Operation in Brazil ........................................................................................................ 585
Pinto, Wildeman and Gusek

Case Study of Pot Ridge Passive Treatment Systems, Cambria County Pennsylvania .......................... 592
Rose, Alcorn, Phelps and Bower

Evaluating Successes in Passive Treatment at Sequatchie Valley Coal Corporation in East Central Tennessee ........................................................................................................... 604
Schmidt and Stearns

Passive, Periodic Flushing Technology for Mine Drainage Treatment Systems .................................. 611
Vinci and Schmidt

Modeling of Iron Oxidation in a Passive Treatment System .................................................................. 626
Watzlaf, Schroeder and Kairies
